**Re:** Rupture Pin

**Date:** November 3, 2004

Lee,

I would like to thank you for introducing me to your product. Previously we were using a rupture disc from XXXX, Inc. While this was a good product, the time to change the disc is 10x as much as the time to change the buckling pin. In addition to the ease of maintenance, I am impressed with the amount of (or lack of) preventative maintenance on your pressure relief device.

Again, your buckling pin has saved us money already and will continue to do so in the future.

In the future, if any of your customers would like to talk to me before they make their decisions, please have them give me a call.

Don Berry

Georgia-Pacific, Wauna  
Bleach Plant Maintenance Planner/ Supervisor
